SCIENCE CLUB

The Science Club consists of a small group of students who show an interest in science. A student does not have to be a science major to become a member. An ongoing project of the Science Club is the renovation of the Rice Observatory, an interesting feature of Cumberland University's campus. Other planned activities include trips to various places such as the Huntsville Alabama Space Center, the Oak Ridge Atomic Energy Center, and several other Science centers. The Science Club desires to provide the student body with an understanding of how science affects people throughout life.

1984 WORLD NEWS

— Mission specialist Bruce McCandless takes a walk in space in early 1984. He is seen here using the manned maneuvering unit as he moved away from the Shuttle Challenger during the eight-day space mission.

— President Ronald Reagan and Vice President George Bush sought re-election in 1984.

— Democratic presidential candidate Walter Mondale made history when he chose a woman, Geraldine Ferraro as his vice presidential running mate.

— After years of civil war, elections were held in El Salvador in 1984. Jose Napoleon Duarte was elected president in what international observers called the most open and free election in that country in 50 years. The soldiers are reading a newspaper at the Rio Lempa checkpoint near El Salvador. The headline reads "There is Faith in the Electoral Process."

— In our own country, once again President Reagan was elected to office. He won with the biggest electoral vote in the nation's history. (49 states with 49 percent of the total vote). Here President and Mrs. Reagan are shown at the victory celebration on election night, November 6, 1984.

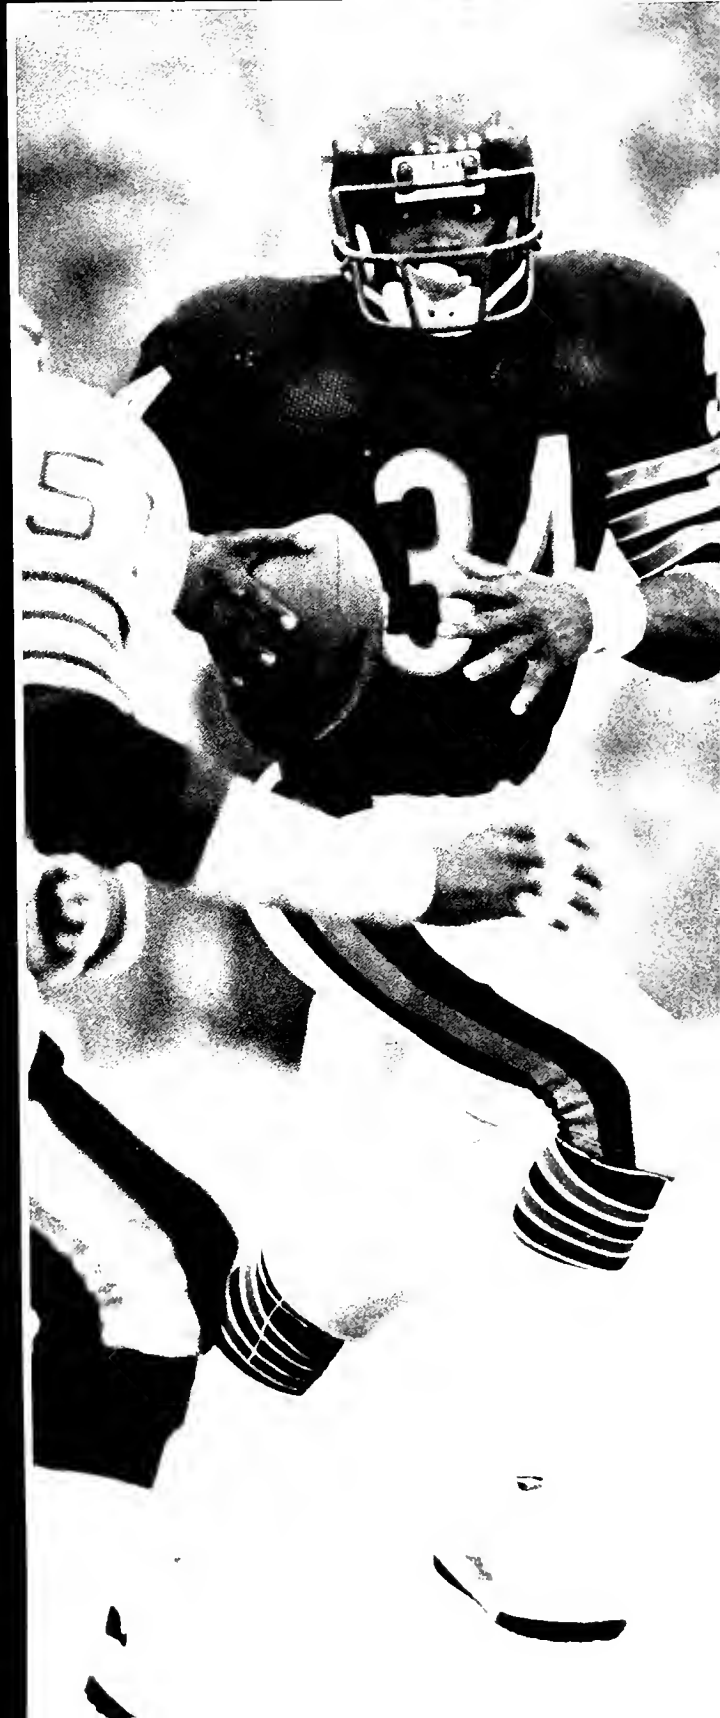

— The United States Marines arrived in Beirut in 1982. Lebanon was torn by Civil War and foreign invasion. In 1984 when the U.S. pulled out, more than 260 Marines were dead, Lebanon was still at war with most of its territory occupied by foreign troops and its government tottering.

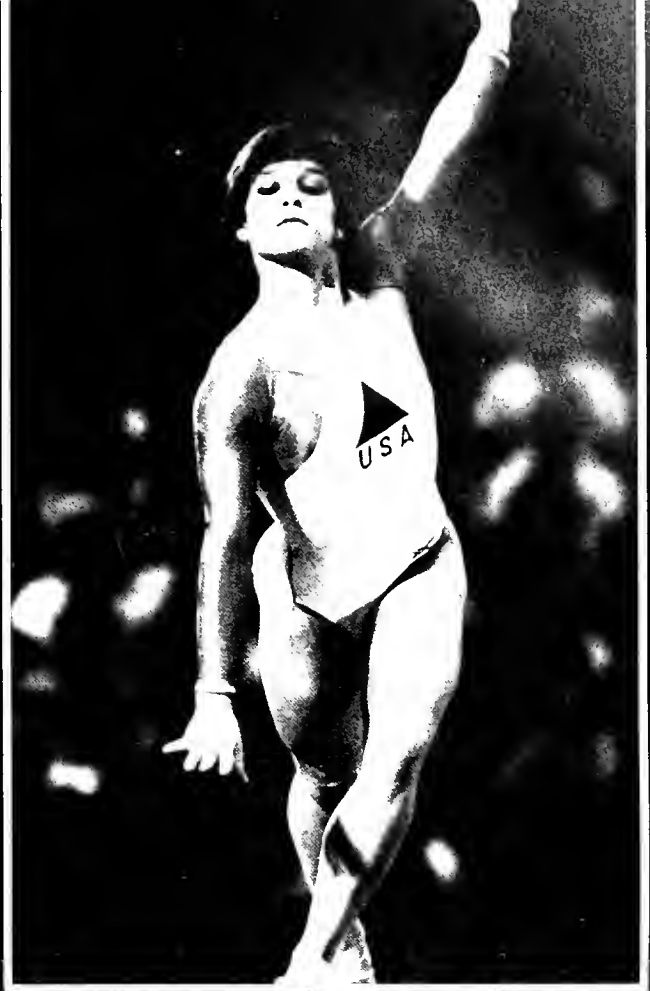

— Throughout 1984, Pope John Paul II traveled through much of the world, including South Korea, Thailand, Switzerland, Canada, Spain and Puerto Rico. In May, the Pope was in Papua New Guinea where he met some of the 200,000 natives that turned out to welcome him in the highland jungle country

Shirley MacLaine won for best actress and Jack Nicholson won for best supporting actor as an eccentric mother and pot-bellied ex-astronaut in "Terms of Endearment," which also won the best picture award. The photo shows MacLaine and Duvall the night of the Oscars.

Bottom Right: The Statue of Liberty celebrated her 98th birthday in 1984 and she began to show her age. The statue was worn from constant pummeling by wind, salt air and acid rain, and the iron ribbing supporting the copper covering was badly corroded. A two-year restoration began in July 1984. It included a new gold-plated torch.

Above: Vanessa Williams was forced to surrender her title as Miss America at the request of pageant officials because she had posed nude for sexually explicit photos. She crowned Sharlene Wells, Miss Utah, at the Atlantic City Pageant in September.

Michael Jackson conducted his so-called Victory Tour to more than a dozen cities. The original ticket policy, which required fans to mail in \$120 postal money order for four tickets with no guarantee that they could receive tickets, was shelved after much criticism.

WORKING ADULT DEGREE PROGRAM GRADUATES

The Cumberland University Working Adult Degree Program became a reality in 1984. During the first year, 250 applications were processed and from that group, the first graduates received their four-year degrees in May, 1985. This program is designed to enable working adults to pursue a college degree without the necessity of released work time in order to attend day classes on a college campus. Changes and developments in society such as the explosion of knowledge; new and rapidly changing technology; demands to retool, up-grade and keep abreast on the part of the work force; and increased expectations requiring the completion of a baccalaureate degree for many working adults have made the development of non-traditional programs for non-traditional students mandatory if higher education is to meet the needs of the non-traditional student as well as continuing to serve the traditional student. The working adults who have become a part of the Cumberland University family have added to the strength of the University, its student body, and service to the state and region. It is Cumberland University's hope that we have made a significant contribution to the working adults who have participated and to those who will do so in the future.

IN MEMORY

The Phoenix staff of 1984-85 would like to say a few words in honor of the late Dr. Ernest L. Stockton. Dr. Stockton was President of Cumberland College for twenty-five years before retiring on May 31, 1983. He was responsible for many of the big changes in Cumberland over the years. He supervised the building of Justin Potter Hall in 1963, Edward Potter Hall and Mary White Hall in 1967. Stockton also saw the building of the J.B. Michael Student Center in 1963, the renovation of Memorial Hall in 1966 and the accreditation by the Southern Association of Colleges and Schools in 1963. A great triumph for Dr. Stockton was seeing Cumberland change from a two-year junior college to the current four-year status it enjoys today. Dr. Stockton was a truly great man who had a plan and vision for Cumberland. He dedicated the best years of his life to making the dreams of Cumberland come true. We only regret that he cannot be here today to see all that Cumberland has and will become. We do know that those of us here at Cumberland University owe a great debt to the late Dr. Ernest L. Stockton.
